

Aaron Ismael Meza Carrasco

Machinery/Maintenance Supervisor

DUMAS BLUE BADGE PROGRAM SUMMARY

The Blue Badge program is a Dumas initiative that draws on the company's existing workforce in Mexico to help meet the staffing needs of the Canadian mining industry. The program evaluates candidates in three key areas: technical knowledge, mining experience, and English proficiency. Selected candidates receive ongoing training and support from Dumas to help them integrate into Canadian mines. Blue Badge's vision is to build a solid, sustainable platform that generates a continuous flow of Mexican talent to Canada, consistently supporting the sector's staffing needs.
